2. Enter Username, Email, Password	Sumaiya, sumaiya@gmail.com Test1234	Fields accept input	As expected	Pass
3. Select Role = Job Seeker	Job Seeker	Full Name & Phone fields appear	As expected	Pass
4. Enter Full Name and Phone	Sumaiya 01708976060	Fields accept input	As expected	Pass
5. Click Register button	—	Success message shown	As expected	Pass
Post Condition: New user created in users table (role=jobseeker). Profile created in jobseeker profiles table.				

TC-02: User Registration – Employer (Valid Data)

Project Name: Online Job Portal		Test Designed by: Sumaiya		
Test Case ID: OJP-MTP-01.2		Test Designed date: 22-08-2026		
Test Priority (Low, Medium, High): High		Test Executed by: Sumaiya		
Module Name: Authentication		Test Execution date: 22-08-2026		
Test Title: Verify successful registration as Employer with Valid Data				
Description: Test that a new user can register as Employer with required company fields				
Precondition (If any): User is on the Registration page. Username and email do not already exist.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Navigate to Register page and select Role = Employer	Employer	Company Name, Contact Address fields appear	As expected	Pass
2. Fill all required fields	Prity, Prity@gmail.com Test123456 Bkash Ltd 01570255312 Dhaka	All Fields accepted	As expected	Pass
3. Click Register button	—	Registration Success message shown	As expected	Pass
Post Condition: New user created in users table (role, Employer). Profile created in Employer profiles table.				

TC-03: Registration Validation – Invalid / Missing Data

Project Name: Online Job Portal		Test Designed by: Sumaiya		
Test Case ID: OJP-MTP-01.3		Test Designed date: 22-08-2026		
Test Priority (Low, Medium, High): High		Test Executed by: Sumaiya		
Module Name: Authentication		Test Execution date: 22-08-2026		
Test Title: Verify system rejects invalid or incomplete registration data				
Description: Test both client-side and server-side validation for registration form.				
Precondition (If any): User is on the Registration page.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Submit form with all fields empty	Empty	Error: All fields are required	As expected	Pass
2. Enter username with less than 3 characters	ab	Error: Username must be at least 3 characters	As expected	Pass
3. Enter password with less than 6 characters	12345	Error: Password must be at least 6 characters	As expected	Pass
4. Enter already existing username	Existing username	Error: Username already exists	As expected	Pass
5. Enter already existing email	Existing email	Error: Email already exists	As expected	Pass
Post Condition: No new user record is created in the database.				

TC-04: Login with Valid Credentials

Project Name: Online Job Portal		Test Designed by: Sumaiya		
Test Case ID: OJP-MTP-01.4		Test Designed date: 24-08-2026		
Test Priority (Low, Medium, High): High		Test Executed by: Sumaiya		
Module Name: Authentication		Test Execution date: 24-08-2026		
Test Title: Verify successful login and role-based redirection				
Description: Test login for Job Seeker, Employer, and Admin roles.				
Precondition (If any):Valid accounts exist for all three roles				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Login as Job Seeker	Sumaiya / Test1234	Redirected to Job Seeker Dashboard	As expected	Pass
2. Login as Employer	Prity / Test123456	Redirected to Employer Dashboard	As expected	Pass
3. Login as Admin	admin / password	Redirected to Admin Dashboard	As expected	Pass
Post Condition: Session variables (user_id, username, role) are set correctly.				

TC-05: Login with Invalid Credentials

Project Name: Online Job Portal		Test Designed by: Sumaiya		
Test Case ID: OJP-MTP-01.5		Test Designed date: 24-08-2026		
Test Priority (Low, Medium, High): High		Test Executed by: Sumaiya		
Module Name: Authentication		Test Execution date: 24-08-2026		
Test Title: Verify login fails with wrong username or password				
Description: Test error handling for incorrect login attempts.				
Precondition (If any): User is on the Login page.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Enter invalid username and any password	Wrong user / wrong pass	Error: Invalid username or password	As expected	Pass
2. Enter valid username with wrong password	Prity / wrong password	Error: Invalid username or password	As expected	Pass
Post Condition: No session is created. User remains on login page.				

TC-07: Remember Me (Cookie) Functionality

Project Name: Online Job Portal		Test Designed by: Sumaiya		
Test Case ID: OJP-MTP-01.7		Test Designed date: 25-08-2026		
Test Priority (Low, Medium, High): Medium		Test Executed by: Sumaiya		
Module Name: Authentication		Test Execution date: 25-08-2026		
Test Title: Verify Remember Me sets cookie and auto-logs user				
Description: Test that checking Remember Me creates a cookie and restores session on next visit.				
Precondition (If any): Valid user account exists.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Login with Remember Me checked	Sumaiya / Test1234 + Remember Me	Cookie user_id is set	As expected	Pass
2. Close browser and reopen application	—	User is automatically logged in	As expected	Pass
Post Condition: Session is restored from cookie. User lands on dashboard.				

TC-08: Logout Functionality

Project Name: Online Job Portal		Test Designed by: Sumaiya		
Test Case ID: OJP-MTP-01.8		Test Designed date: 25-08-2026		
Test Priority (Low, Medium, High): High		Test Executed by: Sumaiya		
Module Name: Authentication		Test Execution date: 25-08-2026		
Test Title: Verify logout destroys session and redirects to login				
Description: Test that logout clears session and cookie, and protects pages afterwards.				
Precondition (If any): User is currently logged in.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Click Logout link	—	Session destroyed, redirected to login	As expected	Pass
Post Condition: User is fully logged out. No active session or cookie				

TC-09: Job Seeker – Browse Jobs

Project Name: Online Job Portal		Test Designed by: Sumaiya		
Test Case ID: OJP-MTP-01.9		Test Designed date: 27-08-2026		
Test Priority (Low, Medium, High): High		Test Executed by: Sumaiya		
Module Name: Job Seeker		Test Execution date: 27-08-2026		
Test Title: Verify Job Seeker can view list of active jobs				
Description: Test that all active jobs are displayed with correct information.				
Precondition (If any): Job Seeker is logged in. At least one active job exists.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Navigate to Browse Jobs	—	List of active jobs displayed	As expected	Pass
2. Verify job card content	—	Title, Company, Salary, Description, Requirements, Apply button shown	As expected	Pass
Post Condition: Jobs are successfully retrieved from database and displayed.				

TC-10: Job Seeker – Search Jobs

Project Name: Online Job Portal		Test Designed by: Sumaiya		
Test Case ID: OJP-MTP-01.10		Test Designed date: 27-08-2026		
Test Priority (Low, Medium, High): Medium		Test Executed by: Sumaiya		
Module Name: Job Seeker		Test Execution date: 27-08-2026		
Test Title: Verify search filters jobs by title or company name				
Description: Test client-side search functionality on Browse Jobs page.				
Precondition (If any): Job Seeker is on Browse Jobs page with multiple jobs listed.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Type a job title keyword in search box	Software	Only matching jobs are shown	As expected	Pass
2. Type a company name	Bkash	Matching company jobs shown	As expected	Pass
3. Clear search box	—	All jobs displayed again	As expected	Pass
Post Condition: Search works as expected via client-side filtering.				

TC-11: Job Seeker – Apply for Job (First Time)

Project Name: Online Job Portal			Test Designed by: Sumaiya	
Test Case ID: OJP-MTP-01.11			Test Designed date: 29-08-2026	
Test Priority (Low, Medium, High): High			Test Executed by: Sumaiya	
Module Name: Job Seeker			Test Execution date: 29-08-2026	
Test Title: Verify Job Seeker can successfully apply for a job				
Description: Test application submission for a job not previously applied to.				
Precondition (If any): Job Seeker is logged in. Target job has not been applied by this user.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Go to Browse Jobs and click Apply Now	Valid Job ID	Success message: Application submitted successfully	As expected	Pass
2. Check My Applications page	—	New application appears with status Pending	As expected	Pass
Post Condition: Application record created in applications table with status Pending.				

TC-12: Job Seeker – Duplicate Application Prevention

Project Name: Online Job Portal		Test Designed by: Sumaiya		
Test Case ID: OJP-MTP-01.12		Test Designed date: 30-08-2026		
Test Priority (Low, Medium, High): High		Test Executed by: Sumaiya		
Module Name: Job Seeker		Test Execution date: 30-08-2026		
Test Title: Verify system prevents applying twice to the same job				
Description: Test that a second application attempt for the same job is rejected.				
Precondition (If any): Job Seeker has already applied to a specific job.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Try to Apply Again on the same job	Same Job ID	Error: Already applied or error occurred	As expected	Pass
Post Condition: Only one application record exists for that user-job combination.				

TC-13: Job Seeker – View My Applications

Project Name: Online Job Portal			Test Designed by: Sumaiya	
Test Case ID: OJP-MTP-01.13			Test Designed date: 30-08-2026	
Test Priority (Low, Medium, High): High			Test Executed by: Sumaiya	
Module Name: Job Seeker			Test Execution date: 30-08-2026	
Test Title: Verify Job Seeker can view application history and status				
Description: Test that applied jobs are listed with current status.				
Precondition (If any): Job Seeker has submitted at least one application.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Navigate to My Applications	—	List of applied jobs with Title, Company, Status	As expected	Pass
Post Condition: Correct application data is retrieved and displayed.				

TC-14: Job Seeker – Edit Profile

Project Name: Online Job Portal		Test Designed by: Sumaiya		
Test Case ID: OJP-MTP-01.14		Test Designed date: 30-08-2026		
Test Priority (Low, Medium, High): High		Test Executed by: Sumaiya		
Module Name: Job Seeker		Test Execution date: 30-08-2026		
Test Title: Verify Job Seeker can update full name and phone number				
Description: Test profile update functionality.				
Precondition (If any): Job Seeker is logged in.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Go to Edit Profile, change Full Name and Phone, Save	Ayon 01789345231	Profile updated successfully	As expected	Pass
Post Condition: jobseeker_profiles table updated with new values.				

TC-15: Job Seeker – Edit Profile

Project Name: Online Job Portal		Test Designed by: Ayon		
Test Case ID: OJP-MTP-01.15		Test Designed date: 30-08-2026		
Test Priority (Low, Medium, High): High		Test Executed by: Ayon		
Module Name: Job Seeker		Test Execution date: 30-08-2026		
Test Title: Verify Job Seeker can update full name and phone number				
Description: Test profile update functionality.				
Precondition (If any): Job Seeker is logged in.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Go to Edit Profile, change Full Name and Phone, Save	Prity 01789345231	Profile updated successfully	Error	Fail
Post Condition: jobseeker_profiles table updated with new values.				

TC-16: Employer – Post New Job (Valid Data)

Project Name: Online Job Portal		Test Designed by: Ayon		
Test Case ID: OJP-MTP-01.16		Test Designed date: 31-08-2026		
Test Priority (Low, Medium, High): High		Test Executed by: Ayon		
Module Name: Employer		Test Execution date: 31-08-2026		
Test Title: Verify Employer can post a new job successfully				
Description: Test successful job posting with all required fields.				
Precondition (If any): Employer is logged in and has a valid profile				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Navigate to Post Job page	—	Job posting form displayed	As expected	Pass
2. Fill Title, Description, Requirements, Salary and submit	Junior Software Developer / Looking for PHP developer / PHP, MySQL / 25000-35000 BDT	Success: Job posted successfully	As expected	Pass
3. Check My Jobs page	—	New job appears with status Active	As expected	Pass
Post Condition: New record created in jobs table linked to the employer.				

TC-17: Employer – Post New Job (Valid Data)

Project Name: Online Job Portal		Test Designed by: Ayon		
Test Case ID: OJP-MTP-01.17		Test Designed date: 31-08-2026		
Test Priority (Low, Medium, High): High		Test Executed by: Ayon		
Module Name: Employer		Test Execution date: 31-08-2026		
Test Title: Verify Employer can post a new job successfully				
Description: Test successful job posting with all required fields.				
Precondition (If any): Employer is logged in and has a valid profile				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Navigate to Post Job page	—	Job posting form displayed	As expected	Pass
2. Fill Title, Description, Requirements, Salary and submit	Junior Software Developer / Looking for PHP developer / PHP, MySQL / 25000-35000 BDT	Success: Job posted successfully	Error	Fail
3. Check My Jobs page	—	New job appears with status Active	As expected	Pass
Post Condition: New record created in jobs table linked to the employer.				

TC-06: Login with Invalid Credentials

Project Name: Online Job Portal		Test Designed by: Sumaiya		
Test Case ID: OJP-MTP-01.6		Test Designed date: 24-08-2026		
Test Priority (Low, Medium, High): High		Test Executed by: Sumaiya		
Module Name: Authentication		Test Execution date: 24-08-2026		
Test Title: Verify login fails with wrong username or password				
Description: Test error handling for incorrect login attempts.				
Precondition (If any): User is on the Login page.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Enter invalid username and any password	Wrong user / wrong pass	Error: Invalid username or password	Error Not Shown	Fail
2. Enter valid username with wrong password	Prity / wrong password	Error: Invalid username or password	Error Not Shown	Fail
Post Condition: No session is created. User remains on login page.				

TC-18: Employer – Post Job Validation

Project Name: Online Job Portal		Test Designed by: Ayon		
Test Case ID: OJP-MTP-01.18		Test Designed date: 02-09-2026		
Test Priority (Low, Medium, High): High		Test Executed by: Ayon		
Module Name: Employer		Test Execution date: 02-09-2026		
Test Title: Verify validation when Title or Description is missing				
Description: Test required field validation for job posting.				
Precondition (If any): Employer is on the Post Job page.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
6. Submit from with empty-file	Title empty	Error: Title and description are required	As expected	Pass
7. Submit from with empty description	Description empty	Error: Title and description are required	As expected	Pass
Post Condition: No new job record is inserted into the database.				

TC-19: Employer – View My Jobs

Project Name: Online Job Portal		Test Designed by: Ayon		
Test Case ID: OJP-MTP-01.19		Test Designed date: 02-09-2026		
Test Priority (Low, Medium, High): High		Test Executed by: Ayon		
Module Name: Employer		Test Execution date: 02-09-2026		
Test Title: Verify Employer can view only their own posted jobs				
Description: Test that My Jobs shows only jobs belonging to the logged-in employer.				
Precondition (If any): Employer has posted at least one job.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Navigate to My Jobs	—	Only own jobs are listed-with Edit/Delete options	As expected	Pass
Post Condition: Jobs correctly filtered by employer id.				

TC-20: Employer – Edit Job

Project Name: Online Job Portal		Test Designed by: Ayon		
Test Case ID: OJP-MTP-01.20		Test Designed date: 02-09-2026		
Test Priority (Low, Medium, High): High		Test Executed by: Ayon		
Module Name: Employer		Test Execution date: 02-09-2026		
Test Title: Verify Employer can update existing job details				
Description: Test job editing functionality.				
Precondition (If any): Employer owns at least one job.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1.Click Edit on a job, modify Title and Salary, Save	Senior Software Developer / 40000-50000 BDT	Job-updated successfully	As expected	Pass
Post Condition: Jobs table record updated with new values. Changes visible to Job Seekers.				

TC-21: Employer – Delete Job

Project Name: Online Job Portal			Test Designed by: MD Shakib Hossen	
Test Case ID: OJP-MTP-01.21			Test Designed date: 02-09-2026	
Test Priority (Low, Medium, High): High			Test Executed by: MD Shakib Hossen	
Module Name: Employer			Test Execution date: 02-09-2026	
Test Title: Verify Employer can delete their own job				
Description: Test job deletion functionality				
Precondition (If any): Employer owns at least one job.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Click Delete on a job and confirm	Owned Job ID	Job deleted and removed from list	As expected	Pass
Post Condition: Job record removed from jobs table. No longer visible in Browse Jobs				

TC-22: Employer – View Applications

Project Name: Online Job Portal			Test Designed by: MD Shakib Hossen	
Test Case ID: OJP-MTP-01.22			Test Designed date: 02-09-2026	
Test Priority (Low, Medium, High): High			Test Executed by: MD Shakib Hossen	
Module Name: Employer			Test Execution date: 02-09-2026	
Test Title: Verify Employer can view applications for their jobs				
Description: Test that applications submitted by Job Seekers are visible.				
Precondition (If any At least one Job Seeker has applied to the Employer’s job.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1.Navigate to View Applications	—	List of applicants with Job Title, Name, Status	As expected	Pass
Post Condition: Applications correctly linked via job_id and employer ownership.				

TC-23: Employer – Update Application Status

Project Name: Online Job Portal		Test Designed by: MD Shakib Hossen		
Test Case ID: OJP-MTP-01.23		Test Designed date: 03-09-2026		
Test Priority (Low, Medium, High): High		Test Executed by: MD Shakib Hossen		
Module Name: Employer		Test Execution date: 03-09-2026		
Test Title: Verify Employer can change application status				
Description: Test status update from Pending to Accepted or Rejected.				
Precondition (If any): An application exists for one of the Employer’s jobs				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1.Select new status and update	Status = Accepted	Status updated successfully	Status changed	Pass
2.Verify from Job Seeker side	—	Job Seeker sees updated status	As expected	Pass
Post Condition: applications table status field is updated.				

TC-24: Employer – Edit Company Profile

Project Name: Online Job Portal		Test Designed by: MD Shakib Hossen		
Test Case ID: OJP-MTP-01.24		Test Designed date: 03-09-2026		
Test Priority (Low, Medium, High): Medium		Test Executed by: MD Shakib Hossen		
Module Name: Employer		Test Execution date: 03-09-2026		
Test Title: Verify Employer can update company profile information				
Description: Test company profile update.				
Precondition (If any): Employer is logged in.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Go to Edit Profile, change Company Name, Contact, Address, Save	Bkash LTD / 01711223344 / Gulshan, Dhaka	Profile updated successfully	As expected	Pass
Post Condition: Employer profiles table updated.				

TC-25: Admin – Dashboard Statistics

Project Name: Online Job Portal			Test Designed by: MD Shakib Hossen	
Test Case ID: OJP-MTP-01.25			Test Designed date: 03-09-2026	
Test Priority (Low, Medium, High): High			Test Executed by: MD Shakib Hossen	
Module Name: Admin			Test Execution date:03-09-2026	
Test Title: Verify Admin Dashboard shows correct statistics				
Description: Test that Total Users, Total Jobs, and Total Applications are accurate				
Precondition (If any): Admin is logged in. Database contains users, jobs, and applications				
Test Steps	Test Data	Expected Results	As expected	Status (Pass/Fail)
1. Observe Dashboard statistic boxes	—	counts match actual database records	As expected	Pass
Post Condition: Statistics are correctly calculated and displayed				

TC-26: Admin – View and Search Users

Project Name: Online Job Portal			Test Designed by: MD Shakib Hossen	
Test Case ID: OJP-MTP-01.26			Test Designed date: 03-09-2026	
Test Priority (Low, Medium, High): High			Test Executed by: MD Shakib Hossen	
Module Name: Admin			Test Execution date: 03-09-2026	
Test Title: Verify Admin can view and search all registered users				
Description: Test user listing and search functionality.				
Precondition (If any): Admin is logged in. Multiple users exist.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1.Navigate to Users page	—	All users listed with details	As expected	Pass
2.Use search (if available)	Existing username	Filtered results shown	As expected	Pass
Post Condition: User data retrieved correctly from user’s table.				

TC-27: Admin – Edit User

Project Name: Online Job Portal			Test Designed by: MD Shakib Hossen	
Test Case ID: OJP-MTP-01.27			Test Designed date: 03-09-2026	
Test Priority (Low, Medium, High): Medium			Test Executed by: MD Shakib Hossen	
Module Name: Admin			Test Execution date: 03-09-2026	
Test Title: Verify Admin can edit user information				
Description: Test user edit functionality.				
Precondition (If any): Admin is logged in. Target user exists.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1.Click Edit on a user, modify fields, Save	Updated email or other editable fields	User information updated	As expected	Pass
Post Condition: Users table record updated.				

TC-28: Admin – Delete User

Project Name: Online Job Portal			Test Designed by: MD Shakib Hossen	
Test Case ID: OJP-MTP-01.28			Test Designed date: 04-09-2026	
Test Priority (Low, Medium, High): High			Test Executed by: MD Shakib Hossen	
Module Name: Admin			Test Execution date: 04-09-2026	
Test Title: Verify Admin can delete a user				
Description: Test user deletion functionality.				
Precondition (If any): Admin is logged in. A non-critical user exists.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Click Delete on a user and confirm	Non-admin User ID	User deleted and removed from list	As expected	Pass
Post Condition: User record removed from users' table.				

TC-29: Admin – View and Delete Jobs

Project Name: Online Job Portal		Test Designed by: MD Shakib Hossen		
Test Case ID: OJP-MTP-01.29		Test Designed date: 05-09-2026		
Test Priority (Low, Medium, High): High		Test Executed by: MD Shakib Hossen		
Module Name: Admin		Test Execution date: 05-09-2026		
Test Title: Verify Admin can view all jobs and delete any job				
Description: Test admin-level job listing and deletion.				
Precondition (If any): Admin is logged in. Jobs exist in the system.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1.Navigate to Jobs page	—	All jobs listed	As expected	Pass
2.Delete a job	Any Job ID	Job deleted successfully	As expected	Pass
Post Condition: Job removed from jobs table and no longer visible to anyone.				

TC-30: Role-Based Access Control

Project Name: Online Job Portal		Test Designed by: MD Shakib Hossen		
Test Case ID: OJP-MTP-01.30		Test Designed date: 05-09-2026		
Test Priority (Low, Medium, High): High		Test Executed by: MD Shakib Hossen		
Module Name: Security		Test Execution date:05-09-2026		
Test Title: Verify unauthorized access is blocked for each role				
Description: Test that users cannot access pages belonging to other roles.				
Precondition (If any): Accounts for all three roles exist.				
Test Steps	Test Data	Expected Results	Actual Results	Status (Pass/Fail)
1. Login as Job Seeker and try to access Admin or Employer pages via URL	index.php?page=admin_dashboard	Redirected to login or home	As expected	Pass
